NEW COLLECTION

Hotel

We designed this collection aiming to give a unique Luxury hotel feeling and atmosphere.

Hotel furniture should reflect two things - proper function and visual appeal.

This is how we designed this collection having a clear focus on each size to maximize comfort for user. We applied a natural wooden look highlighted by the diamond marquetry.

Natural fiber and rattan give also an intimate atmosphere to each furniture.

Inspiration

“If you travel everywhere and find the same elements everywhere, somehow it reduces the value of the place“

NEW COLLECTION

Helusa

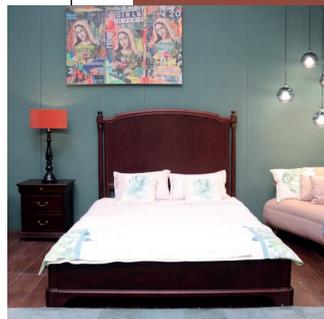

We designed this bedroom collection with the idea of a Georgian furniture design. Indeed, British furniture is widely known today for its elegant appearance. Georgian pieces are heavier and, in a sense, much more masculine as well.

The mahogany looks and finishing is essential as well since it was by far the primary wood in furniture-making during the Georgian era.

“Furniture is meant to be used, enjoyed and beautiful.”

Estampe

Japanese inspiration.

The first thing that springs to mind when we think about Japanese design is a feeling of Zen, a sense of ease and tranquillity.

This collection is an invitation to refinement, reducing down to what is necessary and always prioritising quality.

Perfect sober black painted finishing embracing the natural beauty of the wood: ESTAMPE is a quietly beautiful collection

Gold & Urban

The factory style first arose in the lofts of NEW YORK city. Today, we can also find it in homes and apartments around the world. Our post-industrial viewpoint on the Industrial age is pure nostalgia. That time appeals to us on an emotional level because we glorify it as an era of hard work, honesty, forthrightness, modesty and ingenuity.

“Look at usual things with unusual eyes”

NEW COLLECTION

Eco Friendly

Legality, traceability, sustainability and ethicality are the minimum standard for our daily work and all our furniture. Through this new recycle collection, we also wanted to add a new perspective and to bring those words even more to life. All of the tops are **100% made from recycled plastic** and we associated them with solid raw finished wood to accentuate the idea of a natural product. The metal legs compliment the design with a modern touch.

Inspiration

“As a man changes his own nature, so does the attitude of the world change towards him. We need not wait to see what others do.”

Art

Painting could be philosophically define as the “science of beauty” and Leonardo da Vinci described it as being and intellectual things “lapittura è cosamentale”.

ART is always unique and handmade from human soul : silence of thought and the music of sight.

Probably the most important principle of interior design is to make sure every room has a focal point. Wall art is the easiest and best way of doing this. It creates a central point to the room, as well as a talking point.

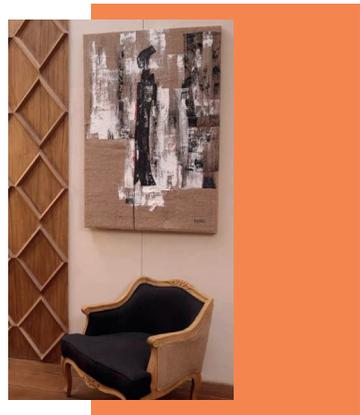

Artist:

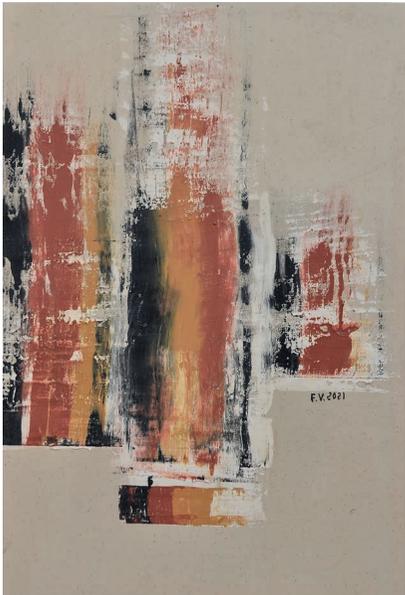

Fabienne Grego is the Artist behind this collection. Leaving in Bali, Fabienne decided to retreat from her Gallery in Paris in order to focus only on her Art.

Student in the famous university “LES BEAUX ARTS de PARIS”, Fabienne created her unique collection of Painting playing on different natural material combine with the unique thickness and structure of the Paint.

“some painters transform the sun into a yellow Spot, others transform a yellow spot into the SUN”.
